ISRAELI/JEWISH LOBBY goes into hyperdrive on IRAN

22 09 2013

Take down IRAN has been the Israeli mantra for years already. They tried hard to get Bush/Cheney to attack and almost did. They have been fueling their Christian Fundamentalist Zionist cohorts, CUFI especially, as well as the Israeli/Jewish Lobby, to further enhance anti-Iran attitudes. With Obama they manipulated him to pursue economic and cyber warfare on IRAN greater than ever before in history. They further boxed him in on Syria and were jubilant earlier this month when Obama was about to attack Syria and, they hoped and planned, ignite the new regional war on their behalf.
